-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Reissue Applications***

1. In view of the following rejection, the finality of the previous Office Action has been withdrawn.
2. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The Reissue Declaration filed 10/9/01 failed to properly identify at least one 35 U.S.C.251 error. It is not sufficient for an oath /declaration to merely state, "...The errors in the claims reside in an unnecessary limitation in the claims. In particular, claim 1 of the patent calls for the limitation of a receiving unit which includes an 'RF signal transmitting means' to enable the receiving unit to transmit information back to the transmitting unit". Patentees seek to obtain claims having a scope broader than the scope of the claims in the issued patent. Rather, the oath /declaration must specifically identify an error. Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error. (MPEP 1414 II. (C)). The errors mentioned and alleged corrected in the reissue oath/declaration of 10/9/01 are no longer there because the applicant amended the added claims 29, 31, 32 and 34 and reinstated the limitations. The differences between the newly added claims 29, 31, 32 and 34 and the original claims 1-28 must be pointed out (MPEP 1414).

3. The Reissue Declaration filed 10/9/01 failed to comply with 37 CFR 1.63 because it failed to state that the person making the oath or declaration acknowledges the duty to

Art Unit: 3766

disclose to the Office all information known to the person to be material to **patentability** as defined in § 1.56 as required by 37 CFR 1.63(b)(3). To cure this defect, applicant may use Form PTO/SB/51 which can be downloaded from the USPTO website.

4. The reissue claims broaden the scope of the patented claims in at least one respect even though they are narrower in other respects. MPEP 1412.03(I). Therefore, the Reissue Declaration must be signed by all inventors (not the assignee). MPEP 1414.01 (III). See also *In re Hayes*, 53 USPQ 2d 1222.

5. Claims 1-29, 31, 32 and 34 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
